AQUATOOLS ACHIEVES THE ECOVADIS PLATINUM MEDAL!

In January 2025, AQUATOOLS reached a new milestone. The company received the EcoVadis Platinum medal, a prestigious distinction that places the company in the top 1% of companies evaluated in its sector. AQUATOOLS demonstrated its commitment to Corporate Social Responsibility (CSR) with an overall score of 82/100. The company achieved an outstanding distinction in the “Environment” category, with an exceptional score of 92/100.

INTERNATIONAL RECOGNITION

In its 3rd year of participation, AQUATOOLS received the Platinum medal. The assessment by EcoVadis demonstrates the company’s steady progression in the area of CSR. In 2024, the company achieved the Gold medal with a score of 73/100. Moving to the next level highlights the company’s excellent practice with regard to sustainability and ethics. EcoVadis is recognised globally for its CSR evaluations. There are four criteria: the environment, social and human rights, ethics and responsible procurement. Each score is rated out of 100, and it identifies the quality of CSR management at the point in time when the assessment takes place. To date, more than 150,000 companies have been assessed by EcoVadis in 185 different countries. Each assessment is tailored to the business based on its size, field of activity, and its geographic location. The assessment criteria follow international CSR standards, for example the UN Global Compact principles, ISO 26000 standards and the International Labour Organization (ILO) conventions.

EXCELLENT COMMITMENT TO THE ENVIRONMENT

AQUATOOLS is certified ISO 14001:2015, and is a role model for sustainability thanks to its innovative and environmentally-responsible actions. Its constant efforts to reduce its ecological footprint and promote sustainable resource management are contributing to the fight against climate change. These activities are all reflected in its score of 92/100 in the “Environment” category. This medal is the result of a long-term commitment to improve our policies and actions. It demonstrates AQUATOOLS’ commitment to achieving excellence in sustainability. The company is motivated by this momentum, and is focusing its efforts on achieving even higher CSR standards.

About AQUATOOLS

AQUATOOLS is a French company specializing in the production of advanced solutions for water hygiene, in particular anti-legionella and all-germ point-of-use filters for healthcare facilities and non-medical establishments open to the public (hotels, accommodation, campsites, etc.).

Thanks to sustained investments in Research and Development and close collaboration with scientific experts, AQUATOOLS has quickly established itself as a key player in the point-of-use filtration sector.

The exceptional quality and performance of our filters position us as a market leader in France and a leading player on the international scene, with subsidiaries opening in the United States in 2017, in the United Kingdom in 2023, and in Germany in 2024. Committed to sustainability, we are determined to develop responsible practices that reflect our deep commitment to social responsibility and the environment, as evidenced by our recent distinction with the EcoVadis platinum medal.
